ABOUT MYSELF

As A Child
I have been using electronic devices as far as I can remember in my childhood. This did stop me from being athletic but it had a profound effect shaping me as a person.

As A Student
I have mostly been above average in studies in my School years and am likely to produce good results given a challenge.

As A Person
I am a guy that uses less words to convey important details, and uses more words for small talk. You can easily guess how important the talk we're having is by the word count.
